Floor area per pack.....	1,755 m <sup>2</sup> 18 17/19 sq. ft
Number of boards per pack.....	8 pcs
Pack weight .....	18 kg 39 28/41 lb
Number of packs on pallet .....	50 pcs
Gross weight of pallet .....	893 kg 1968 37/51 lb
Application class.....	33
Bevel.....	4V
Lock system .....	UNICLIC
Surface structure .....	C (Country) V (Vintage)

Due to the technical features of the flooring the decor images in this catalog may vary slightly from the decor of the actual laminate flooring.

# «Simplicity is genius»,

This is what we say about things that can easily change our lives for the better. We are used to having refrigerators, running water and fountain pens, things that were innovations in their day, and which changed our daily lives. Today transforming your interior with laminate flooring can be as simple as using a vacuum cleaner. Lighters, toothbrushes, cameras, these are all things, just like Floorpan laminate, which have proven that change for the better can be found in simplicity.

To inspire you to make positive changes to your life, we offer you our special collections: a collection of stories about useful inventions, and the KASTAMONU Floorpan laminate flooring collection. We believe that living better is easy and we are here to help you achieve this.

## The benchmark of style

Until the XVII century the wide sleeve was in vogue in Europe, and cuffs were fastened with special chains or ribbons with a button. When the sleeve finally tapered, cuff links replaced these chains.

From the outset cuff links were expensive jewellery accessories. They retained an exclusive.

			 Installation instructions

# The clockwork gadget

In 1770, self-winding watches were invented, containing a special eccentric weight that turns on a pivot. At that time watches were a symbol of high status and were referred to as «eternal». In the 1960s, the self-winding watch was improved and became the industry standard.

For self-winding watches to work correctly they must be worn every day. Therefore, the winder device was invented to store such watches - a special box with an electric motor driving its contents. This unusual and prestigious accessory is often made of expensive wood and jewellery.
