ABOUT NANOCCLICK COLLECTION

The flagship line of Kastamonu laminate flooring is complemented by a new collection of the 33rd resistance class Nanoclick. The design of Nanoclick focuses on the close relationship between nature and home, which allows you to create a comfortable, cozy and relaxing atmosphere in the house. The new decors will look harmoniously in Scandinavian style, Art Deco or Modern style.

The concept of the collection reflects the idea of dynamism, innovation, following modern trends. Some decors are named after famous scientists, inventors and popularizers of science.
