

ULTRAMARINE

34 class

FLOORPAN

ULTRAMARINE

LAMINATE CLASSIFICATION

CLASS	21	22	23	31	32	33	34
UTILIZATION	AC1	AC2	AC3		AC4	AC5	AC6
ABRASION RESISTANCE	≥500	≥1000	≥2000		≥4000	≥6000	≥8500

We introduce laminate of the highest 34 class.

It is certificated for two key indicators: abrasion and impact resistance.

Increased durability and longer service life is confirmed by extended warranty.

ABOUT ULTRAMARINE COLLECTION

FLOORPAN

ULTRAMARINE

DURABILITY

- Withstands more than **8,500 cycles** of abrasive treatment.
- Withstands at least **25,000 cycles** of chair roller abrasion.
- The minimum service life in a residential area is **30 years**.
- Production of the plate by special technology.

ABOUT ULTRAMARINE COLLECTION

FLOORPAN

ULTRAMARINE

MOISTURE RESISTANCE

- The laminate is based on a moisture-resistant HDF plate.
- High resistance to moisture swelling.
No more than 8% for 34 class. While for 33 class the acceptable value is 15%.
- Surface is protected from damage by tea, coffee and even acetone.
The pattern and gloss will remain unchanged.

ADVANTAGES OF THE ULTRAMARINE COLLECTIONS

Fast and easy
installation

Mechanical impact
endurance

Eco-friendly

UV-resistance

Hygienic

Stain resistant

Resistant
to smoldering
cigarette

Underfloor heating
system compatible

Easy to clean

CERTIFICATES AND WARRANTY

15 years warranty
for commercial use

30 years warranty
for residential use

Moisture resistance

«Blue Angel» –
environmental quality
certificate

Hygiene certificate

CERTIFICATES AND WARRANTY

www.blauer-engel.de/uz176

Products marked with the "Blue angel" sign meet the criteria:

- no solvents,
- low emissions,
- no odor,
- tested in accredited testing laboratories for formaldehyde and other organic compounds,
- mainly made from renewable raw materials,
- production is safe for the environment,
- exceptionally safe for health in a residential area.

«Blue angel» is one of the most known and oldest certificate for eco-friendly products and services in the world. This certificate is awarded by the RAL (Certified Institute for Quality Assurance and Labeling, Germany) and the Federal Ministry of Ecology of Germany.
