## BRINGING DESIGN AND TECHNOLOGY TOGETHER

With its designs with modern lines and carefully selected high quality raw materials, "Dorpan" door panel, which brings a new understanding and aspect to the door systems, offers decorative solutions for homes and offices. With the perfect harmony of design, technology and aesthetics, "Dorpan" door panels are produced in our plant in Romania, for which we have invested 100 million Euros, and they are exported to 45 countries including Turkey, Central American countries, and India. With the annual production of 19.5 million units, and being the second largest plant in Europe and third in the world, "Dorpan" ready-made door panel is a global brand of Kastamonu Entegre. "Dorpan" products provide door manufacturers with robust, efficient and fast production. With its environmentally friendly features, rich variety of design and size options, and ease of use in the application, it keeps its place as the most preferred product. With 16 ornamented models and 4 plain models with the pattern of its own timber (oak, pine, mahogany, fantasy, freze, modern, smooth), "Dorpan" brand offers an aesthetic look.
